RF OVERPRINTS

CM3 VAR

These RF (Republique Francaise) overprints were supposed to have been applied to stamps after the stamps were affixed to envelopes. We have handled some of these covers & they sell for 100's of dollars each. The overprints on mint stamps are of questionable status and nobody seems to know much about them except that they sell quite reasonably. Take advantage of this special and add an item of historical interest to your collection. All stamps are signed.

SPECIAL – Singles – $9.95

1924 MOUNT EVEREST EXPEDITION STAMPS

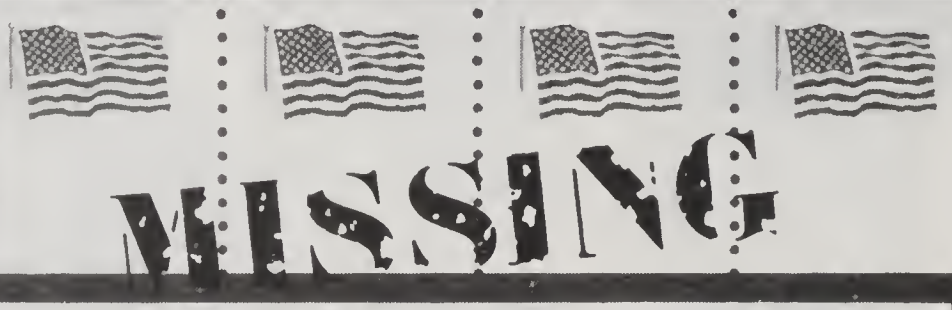
Special blue "stamps" issued to call attention to the expedition. This was only the 3rd expedition ever formed to attempt climbing Mt. Everest.

The "stamp" pictures the Base Camp, Rongbuk Glacier & Everest in the background. In the border are the names of the three countries associated with the expedition – Sikkim – Tibet – Nepal and the year 1924 in the bottom border. The corner swastikas are decorative only.

These stamps are quite scarce today as very few have survived its year. All are VF-NH.

SPECIAL – SINGLE – $4.95 – ORDER NO. 03-045
BLOCK OF FOUR – $15.00 – ORDER NO. 03-046

The Supreme Court is



You guessed it! The black color used in printing the "Flag over the Supreme Court" coils (Sc no. 1895) failed to print. The Supreme Court appears only as colorless embossing on the stamp. This is a new *major error* and has realized over $200.00/pair in auction already.

We just acquired a limited quantity of these coils which we'll sell on a First Come – First Served basis. All are VF-NH.

Special – Pair $150.00 – ORDER NO. 03-043
Strip of 4 – $250.00 – ORDER NO. 03-044

Bronze Coin Hoard

We are very pleased to offer a small hoard (26 pieces) of Choice Very Fine Bronze Folles issued over 1,600 years ago by the Roman Emperor Maxentius. His portrait is featured on one side, with a statue of Roma standing within a hexastyle temple on the reverse. This architecural motif may refer to the temple he built and dedicated to his son Romulus in the Roman Forum.

In 1896, Harry Thurston Peck's "Dictionary of Classical Literature and Antiquities" described Marcus Aurelius Valerius Maxentius (306-312 AD) as "a monster of rapacity, cruelty, and lust." But it would appear that Maxentius' bad press was due to the propaganda of Constantine, his murderer and successor. Acutally, Maxentius is credited with halting the persecution of the Christians.

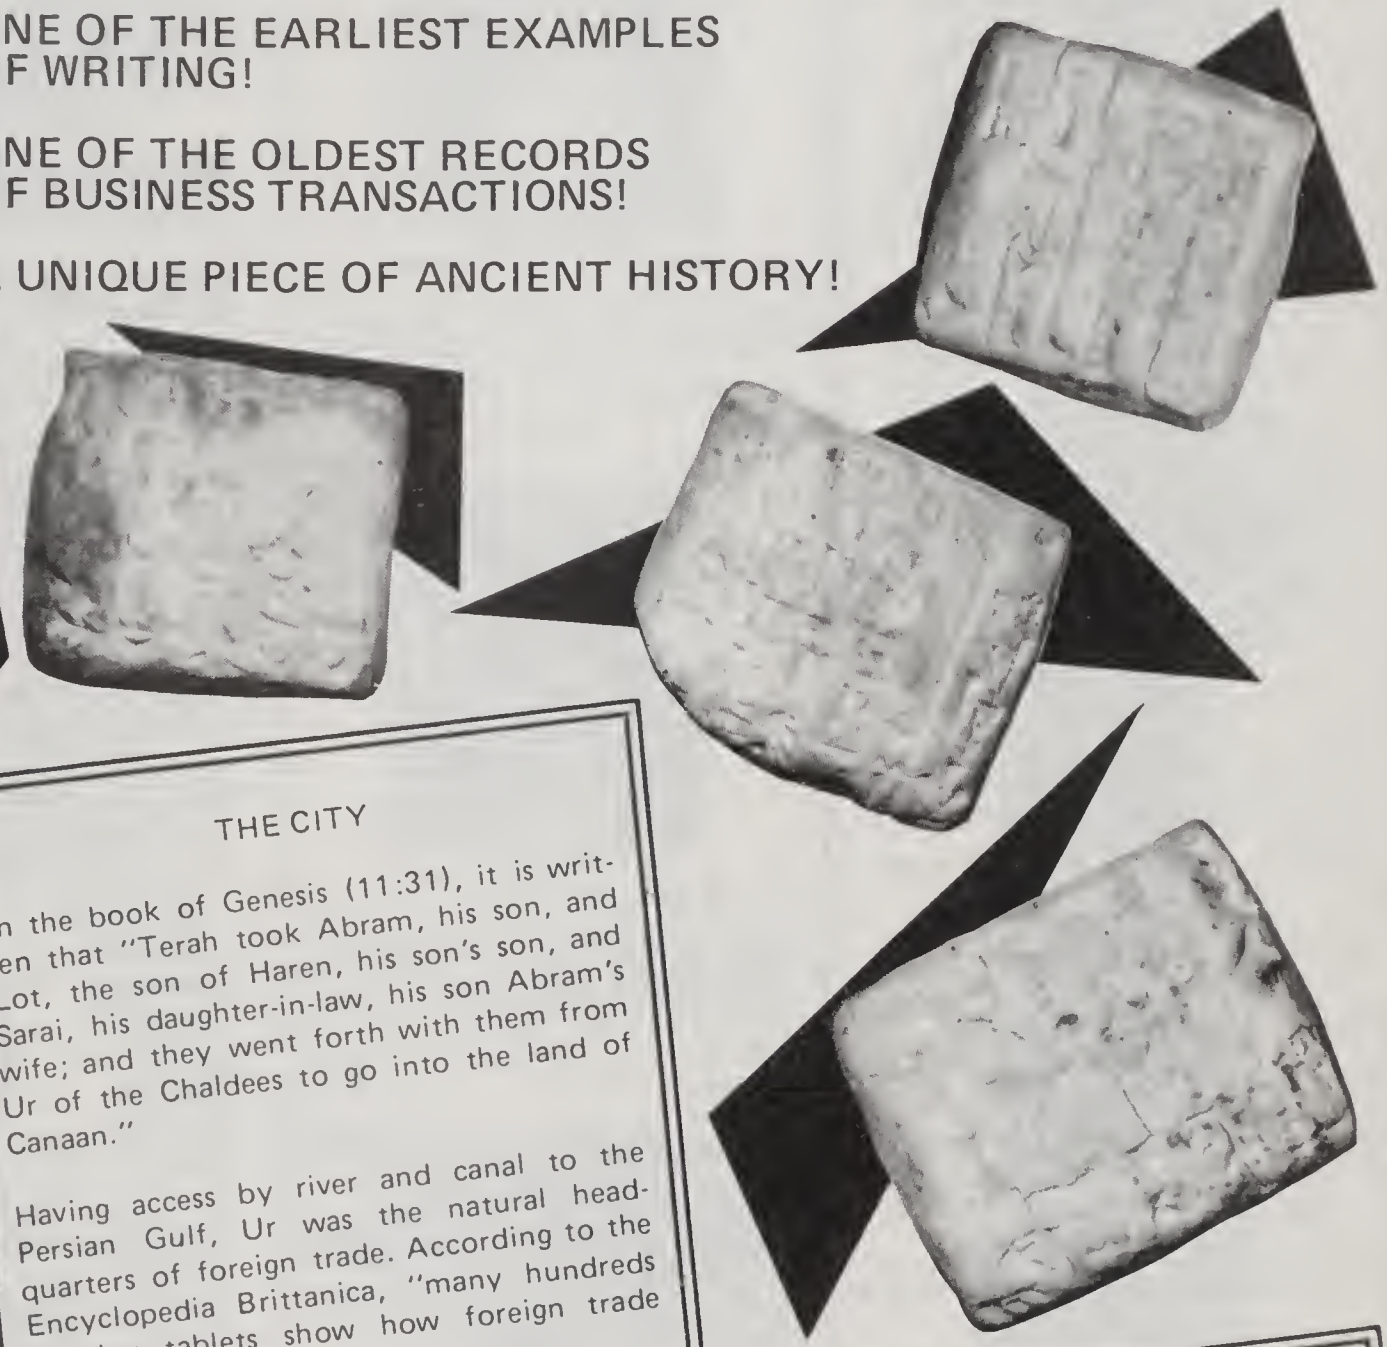
CUNEIFORM TABLETS

ONE OF THE EARLIEST EXAMPLES OF WRITING!

ONE OF THE OLDEST RECORDS OF BUSINESS TRANSACTIONS!

A UNIQUE PIECE OF ANCIENT HISTORY!



Two thousand years before the time of Jesus . . . about the time that the Patriarch Abraham left his home in Ur to establish Judaism in the Holy Land . . . "documents" were recorded by using cuneiform characters impressed in clay tablets in the land of Ur. These documents are each unique and give us a clear insight into life in the Middle East, four thousand years ago.

Superior is privileged to be the first to offer these genuine cuneiform tablets. They have been preserved, deciphered and authenticated by the experts in the Sterling Memorial Babylonian Collection Department at Yale University. Each cuneiform tablet is accompanied by a letter from Yale with a full description of the characters found on that particular tablet.

Because we think you should not miss this unique opportunity, we will permit layaway plans of $65 down and $50 per month. Or, if payment is made in full you can receive your cuneiform tablet immediately.

But before you make up your mind, read about the tremendous historical significance of these 4,000 year old tablets:

THE CITY

In the book of Genesis (11:31), it is written that "Terah took Abram, his son, and Lot, the son of Haren, his son's son, and Sarai, his daughter-in-law, his son Abram's wife; and they went forth with them from Ur of the Chaldees to go into the land of Canaan."

Having access by river and canal to the Persian Gulf, Ur was the natural headquarters of foreign trade. According to the Encyclopedia Brittanica, "many hundreds of clay tablets show how foreign trade was organized."

THE HISTORICAL SIGNIFICANCE

In the opinion of some great thinkers, the invention of writing was the real beginning of civilization. It is so fundamental that one is astonished that it appeared so late (c. 3,000 BC) in the development of mankind.

One of the earliest forms of writing was "cuneiform;" its name derives from the fact that it was written by pressing wedge-shaped marks into clay. Originally pictographic in nature, the symbols soon lost any resemblance to the objects they were originally supposed to represent. Cuneiform writing was passed from the Sumerians to the Babylonians and Assyrians (e.g. at Ur) and on to the Hittites, the Persians, and other peoples.

THE TABLETS

The tablets, which we now offer, all document business transactions, and they range in length from about 1 to 2 inches. Each one has a unique inscription; we supply the summary made by the Yale scholars. These tablets document the delivery of grain. . . receipt of slave girls. . . record of grain rations . . . deliveries of lambs . . . record of workmen . . . delivery of gazelle . . . receipt of reed baskets . . . expenditure of beer . . . record of wood, reed and bitumen . . . deliveries of baskets of fish . . . receipt of silver . . . oil allotments . . . account of cereals . . . receipt of rent . . . and so on.

In addition to the inscription summary, many tablets are dated to the year, month and sometimes the day, since this information is also contained in the inscription. Actual dated examples include "the third month, the 26th day in the fourth year of Amar-Sin's reign" (i.e. 2043 BC), and "the seventh month in the third year of Shu-Sin's reign" (i.e. 2034 BC).

RARE OPPORTUNITY

We don't know of anywhere in the world you can buy similar ancient tablets in excellent condition, authenticated and interpreted by scholars . . . and certainly, should you locate one, it is most unlikely that it would be priced so moderately. Just $165.00. We have seen, on rare occasions, similar cuneiform tablets offered for $350 to $500!

Nothing you own or can own can be of such historical significance at such a low cost as these 4,000 year old cuneiform tablets from Ur, the home of the Biblical Patriarchs. An early order is recommended, since we have only a very limited supply! Telephone reservations will be accepted.

Each tablet will be accompanied by a certificate of authenticity provided by the BABYLONIA COLLECTION YALE UNIVERSITY and translated. This certificate is suitable for display or framing!

Second to Third Century Roman Silver Denarii

Ancient witness to the rise of Christianity

The Roman silver danarius was a standard ancient coin for over 300 years (First Century B.C. – Third Century A.D.). About the size of a U.S. Cent, it was originally a day's pay for a Roman soldier. The denarius was mistranslated as "Penny" in the King James Version of the Bible. . .and until a few years ago the abbreviation of "Penny" in the English monetary system was "d.", referring to the denarius!

The famous "Tribute Penny" was a silver denarius of the Emperor Tiberius (14-37 AD) that was shown to Jesus, imspiring the words "Render unto Caesar what is Caesar's, etc". Nero's denarii witnessed the first official persecution of the Christians, who were wrongly blamed for the great Roman fire in 64 AD. The denarii of Trajan were around when in 111 AD that emperor ordered the governor of Bithynia to put to death all those who declared themselves Christians, without the necessity of their having committed any other crime. The portrait coins of Marcus Aurelius (161-180 AD) circulated as the Christians were accused of provoking the wrath of the state gods, since they refused to make sacrifices to them. In 202 an edict of Septimus Severus inaugurated the first systematic persecution of Christians, who refused military service.

There were also periods of toleration under Commodus (177-192 AD) and Caracalla (198-217 AD).

You can see the faces of the persecutors and tolerators of Christians peering out from the pages of history . . .on the Second to Third Century Roman silver denarii which we are pleased to offer in *Choice Very Fine* condition (our choice of Emperors) for only . . . . . $39.50 each.

Pre-Renaissance Silver Coins from the Kingdom of Naples

The kingdom of Naples, covering the southern portion of the Italian peninsula, was independent from the Middle Ages to 1860. Economically it was amajor commercial center and grain producer, and culturally, a point of diffusion of Greek and Arab learning into western Europe.

After passing through the hands of the Norman and Hohenstaufen dynasties, Charles of Anjou, brother of the French King Louis IX gained control of the kingdom in 1266. A struggle ensued between the Anjouvians and the Spanish House of Aragon leading to a period of near-anarchy.

Under Robert of Anjou, King of Naples from 1309 to 1343, the kindom enjoyed a brief period of prosperity and importance in Italian affairs. Thereafter the history of the kingdom is a story of one dynastic dispute after another.

The U.S. Quarter-sized silver coin, called "gigliato", was introduced shortly before the ascent of Robert of Anjou to power. Robert's coins shows him sitting on his throne; an ornate cross and four lilies are featured on the reverse. These handsome coins, reflect the high artistic standards of Italy, then at the threshold of the Renaissance.

We have very few select Very Fine six century old Kingdom of Naples silver coins of Robert von Anjou, priced at only $47.00

Put One Away For The Future

Sc 1895

We just acquired 4 full rolls (of 100 stamps each) of the Flag over Supreme Court imperforate coils. These presently catalog at $500.00 per roll which is really quite low. While they last, we will sell these (first come, first served) for $250.00 per roll.

Complete with their post office plastic container as issued. We think you'll agree and put one away for the future. Sure seems like a sure fire winner.

The 1929 Edison Coil Stamp
is the only U.S. Commemorative

BUREAU OF ENGRAVING AND PRINTING
WASHINGTON, D.C.
This souvenir sheet consists of vignettes from three United States postage stamps devoted to Hawaiian subjects. Depicted on the left is an allegorical representation of Hawaii's admission as the fiftieth state of the Union, taken from the 7¢ Hawaii Statehood Commemorative Air Mail Issue of 1959. The central subject pictures Honolulu's majestic statue of King Kamehameha I, renowned for first placing the Islands under a single sovereignty, and was adapted from the Hawaii stamp of the Territorial Series issued in 1937. On the right is a view of Diamond Head, the famous Honolulu landmark, symbolic of the natural beauty and tranquility of all the Islands. This vignette originally appeared on the 80¢ Air Mail stamp, Series of 1952

Silver Test

A single drop of our special solution instantly turns blood red on Silver. Will not turn red on any other metal. The reliable and safe way to make sure it's Silver. Enough for testing hundreds of objects. 1 oz. bottle, instructions.

Diamond Test

Simple, accurate test. One stroke of questionable gems on sapphire test surface positively identifies a Diamond. Diamond substitutes which can scratch glass, such as Cubic Zirconia, cannot pass this test. *Does not harm the gems tested. Includes case containing test plate with magnifying lid, instructions.*

Gold Test

One drop of this secret formula tells "plate, goldfilled, solid karat gold, non-gold." No concentrated Nitric Acid. No costly set of gold-tipped needles. Just clean the object to be tested. If the drop darkens, it's not Gold. This is the fastest, simplest and safest test for Gold. Good for testing hundreds of items. 1 oz. bottle, instructions.

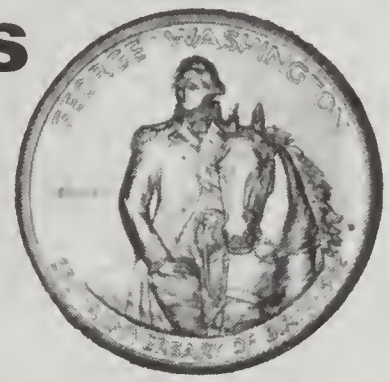
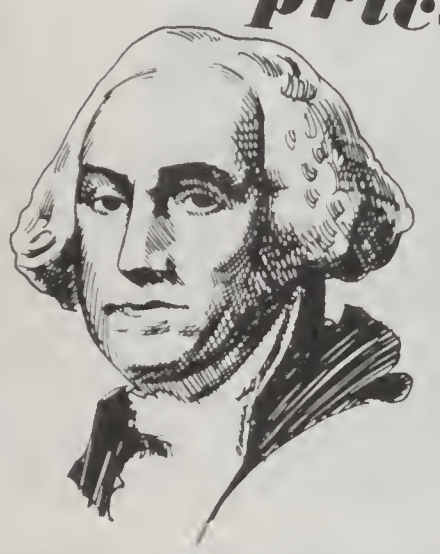
WASHINGTON Commemorative SILVER

Half Dollars

super special price





This sleeper may take a few years to move but when it does watch out! We have a limited number of both the proof & uncirculated specimens. The coin is the first commemorative half dollar issued since 1954 & commemorates the 250th anniversary of the birth of George Washington. It was produced in 90% fine silver & the first produced of 90% since 1964. Designed by Elizabeth Jones who is the chief Sculptor & Engraver of the U.S. The reverse portrays Washington astride a horse while the reverse depicts the facade of Mount Vernon. Interesting fact is that the uncirculated version was struck at the Denver mint while the proof was issued at the San Francisco mint. Naturally these coins are provided in the original mint package. We have limited quantities available on a first come, first served basis. Special price which cannot be repeated once our supply has been exhausted.
